October 25, 2020

We the Committee of Seven to Appeal for World Peace are pleased sincerely that the treaty on the prohibition of nuclear weapons, which was adopted in 2017, has been fixed to enter into force after 90 days from now. We share to congratulate this historical achievement with people in the world who have continued tirelessly to appeal against nuclear weapons.

The nuclear weapons killed many lives in the world since Hiroshima and Nagasaki. The suffering of Hibakushas continues even today. The warheads of nuclear weapons are deployed with operational forces and a part of which are on high alert, ready for use on short notice. A new world will come shortly that the nuclear weapons are prohibited legally together with the Chemical and the Biological Weapons. The nuclear deterrence doctrine depending on nuclear weapons is not the way to world peace but an inhuman policy.

We urge strongly to the non-participating governments including Japan to sign and to ratify this treaty. We continue to appeal them to step together to a world without nuclear weapons which is clear trend of the present world community.
